Data are masked as confidential where fewer than 3 participants or processors are reflected in the data.

<sup>a</sup> Guideline harvest level (GHL): A preseason target catch level determined by the Department of Fish and Game for state managed fisheries.

<sup>b</sup> The price/ton is based on Area Staff estimates. Short tons equal 2,000 pounds.

Figures within this table may not total exactly or match figures from other summary tables due to rounding or differing methods of calculation.
